### Description

I am a PhD candidate in Applied Mathematics with a strong interest in machine learning, probabilistic methods, and their application in simulation. I am currently seeking a full-time position in these fields.

### Experience

<b>Ph.D. Student in Applied Mathematics</b>	<b>CEA, Cadarache France</b>	<b>10/2021 – Present</b>
<ul style="list-style-type: none"><li>○ Data Assimilation for Lagrangian Simulation.</li><li>○ Developed a simulation tool for granular materials using the Material Point Method (MPM).</li><li>○ Adapted Ensemble Kalman Filter for intensity correction and a variational approach for position correction.</li><li>○ Applied to solid mechanics problems (MPM) and incompressible fluid dynamics (Vortex Method).</li><li>○ Presented work at <a href="#">ECCOMAS 2024</a> and <a href="#">PARTICLES 2023</a> and <a href="#">published</a>.</li></ul>		
<b>Machine Learning Intern</b>	<b>CEA, Cadarache France</b>	<b>04/2021 – 10/2021</b>
<ul style="list-style-type: none"><li>○ Developed neural networks constitutive models for nonlinear elastic and elastoplastic laws.</li><li>○ Implemented a semi-supervised approach for penalization.</li><li>○ Presented monthly progress updates within an <a href="#">international working group</a></li></ul>		
<b>Mechanical Engineer Intern</b>	<b>Framatome, Paris France</b>	<b>06/2020 – 08/2020</b>
<ul style="list-style-type: none"><li>○ Studied thermal stratification in elastoplastic flexibility calculations.</li><li>○ Defined a new model based on beam and shell elements.</li><li>○ Integrated and applied the model on complex piping geometries.</li></ul>		
<b>Intern - Account Manager</b>	<b>La Poste, Nantes, France</b>	<b>07/2019 – 08/2019</b>
<ul style="list-style-type: none"><li>○ Customer reception, sales, advice, merchandising.</li><li>○ Improved skills in commercial relations and adaptability.</li></ul>		

### Education

<b>Ecole Polytechnique</b>	<b>10/2021 – Present</b>
Ph.D. in Applied Mathematics	<i>Palaiseau, France</i>
Working with the X/Inria project-team <a href="#">PLATON</a>	
<b>Ecole Centrale de Nantes</b>	<b>09/2018 – 08/2021</b>
Engineering Student	<i>Nantes, France</i>
<a href="#">Data analysis and applications in signal and image processing</a>	
<a href="#">Advanced Modelling and Analysis of Structures</a>	
<b>Lycée Descartes</b>	<b>09/2016 – 07/2018</b>
Preparatory Classes for Engineering Schools	<i>Tours, France</i>

### Skills

- **Machine Learning:** 🍷 Pytorch, 🍌 Scikit-learn, 📺 Keras
- **Scientific Programming:** 🐍 Python, (Pandas, Numpy, Scipy, Plotly, etc.), 🍷 C++ Cpp
- **Mechanics:** Gmsh, Abaqus, Ansys Apdl
- **Others:** Git, L<sup>A</sup>T<sub>E</sub>X

### Languages

- **French:** Native
- **English:** Professional working proficiency (TOEIC: 935)

### Interests

- 🎵 **Music:** Ancient and traditional music with galoubet tambourin, recorder, and diatonic accordion
- 🚣 **Sports:** Rowing, running, trekking
- 📖 **Reading:** Favorite novelists include Stefan Zweig, Henri Bosco, Marguerite Yourcenar, and Jean Giono 📖 [GoodReads](#)
